

CFB 27 Coaching Abilities – Recruiting

Derived from `dynasty-tuning-binary.FTC` (CFB 27).

Talent values are identical in patch 2 and patch 3.

Source: `Talent / TalentDataInt`. Runtime: `Team.CoachTalentEffects`.

Baseline recruiting constants from `RecruitingActionInfo`, `RecruitingTunables`, and `VisitTunables` (see also `docs/recruiting-tunables-math.md`).

How stacking works

Field	Role
<code>Data</code>	Head coach
<code>OCData</code>	Offensive coordinator
<code>DCData</code>	Defensive coordinator

Staff contributions **add**. For position-split abilities, the coordinator that owns that side of the ball gets the larger tier (DC for DB/LB/DL; OC for QB/RB/WR-TE/OL/K-P).

Max stack = HC + OC + DC when all three trees own the ability.

How to read the numbers

Style	Meaning	Examples
Flat influence	Added directly to weekly influence / starting interest	Magnetic, Most Influential, Making Friends, Hospitality, Upsell, pipeline abilities, Lasting Impression
Chance points	Added to a percent chance	Persuasive Personality, Mind Reader, Dream School
Grade steps	Bumps effective letter grade on the F..A+ ladder	Ideal Situation

Letter grades used for pitch/visit bonuses (low to high):

F D- D D+ C- C C+ B- B B+ A- A A+

Useful baselines for the examples below:

Action	Hours	Base influence
SoftSell pitch	20	20
HardSell pitch	40	40
Sway pitch	30	15
Contact Friends and Family	25	20
Complimentary visit bonus	–	5
Visit activity (Interested, A)	–	+30
Visit activity (Dealbreaker, A+)	–	+48

SoftSell pitch grade bonus examples (matching motivation slot): A ~ +4 to +8, A+ ~ +6 to +10 depending on slot. HardSell A+ ~ +12 to +20.

Recruiter

Ability	HC	Own coord	Off coord	Max
Persuasive Personality	30	15	0	45
Magnetic Personality	10	4	2	16
Portal King	10	4	2	16

Persuasive Personality (Recruiting_SwayBoost)

Increased chance to sway for that position group.

- HC alone: **+30** chance points.
- Matching coordinator: **+15** more (off-side contributes 0).
- Max with HC + matching coord: **+45**.

Baseline: each matching motivation on a sway already adds `ChanceToSwayBoostPerMatchingMotivation = 15`, and pipeline level can add up to **25** more (`ChanceToSwayBoostFromPipelineInfluenceLevel`).

Example: You SoftSell-sway a QB with 2 matching motivations (+30 from motivations) and pipeline L3 (+15). Without the ability, that is already a sizable sway package. Persuasive Personality HC for QBs adds **+30** on top of that. With an OC who also has it, add another **+15** (total ability **+45**).

Magnetic Personality (Recruiting_InfluenceBoost_Start)

Flat starting-interest boost for HS recruits at that position.

- HC: **+10**. Full staff: **+16**.

Baseline primary-pipeline starting interest ladder (`InitialInterest_Pipeline`): **0 / 5 / 10 / 15 / 25 / 35** by pipeline level.

Example: A non-pipeline recruit that would open at 0 starting interest opens at **+10** with HC Magnetic alone, or **+16** with full staff. That is roughly one full pipeline-level step on the starting-interest ladder (L2 = 10, L3 = 15).

Portal King (PlayersLeaving_InterestBoost_Transfers)

Same numbers as Magnetic (**10 / 4 / 2**, max **16**), applied to transfer starting interest instead of HS.

Example: Same as Magnetic – a transfer QB opens **+10** more interested with HC Portal King, **+16** with full staff.

Elite Recruiter

Ability	HC	DC	OC	Max
Ideal Situation	3	3	3	9
Upsell	10	5	5	20
Most Influential	5	3/2	2/3	10

Ideal Situation (Recruiting_SchoolGradeBoost_IdealPitch)

Boosts the effective My School letter grade used for ideal-pitch evaluation by **3 grade steps** per staff tier (max **+9**).

Example: Your Playing Time grade is a **B**.

- HC Ideal Situation (+3 steps): treated as **A-** for ideal-pitch purposes.
- Full staff (+9 steps): a **B** is treated as **A+** (and anything already A- or better saturates at the top of the ladder).

That matters because ideal pitches pull the grade bonus from that motivation's letter grade – jumping B to A- moves SoftSell slot bonuses from roughly +1/+1/+2 up toward +3/+4/+6 territory (exact slot tables in `recruiting-tunables-math.md`).

Upsell (`Recruiting_PointsBoost_SchoolGrade`)

Adds flat influence on top of the My School grade contribution when grades affect a recruiting action (pitches, and anything else that uses school-grade point bonuses).

- HC: **+10**. Full staff: **+20**.

Example – SoftSell pitch with an A+ matching motivation:

Base SoftSell influence is **20**. A+ matching-motivation grade bonus is about **+6 to +10** depending on slot (call it **+10** for the strongest SoftSell slot).

Setup	Grade contribution	SoftSell total (base 20 + grade)
No Upsell	+10	30
HC Upsell (+10)	+20	40
Full staff Upsell (+20)	+30	50

So Upsell does not change your letter grade on the HUD – it makes the points you already earn from that grade larger. An A+ SoftSell that was worth ~30 influence becomes ~50 with full Upsell stack, before pipeline or other bonuses.

Example – HardSell with A+ on the biggest HardSell slot (+20 grade bonus):

Base HardSell **40** + grade **20** = **60**. Full Upsell (+20) makes the grade piece **40**, for **80** total before pipeline.

Most Influential (`Recruiting_Action_InfluenceBoost`)

Flat influence added to recruiting actions for that position.

- HC: **+5**. Coordinators: +3 own-side / +2 off-side. Max **+10**.

Example: SoftSell base **20**.

- HC Most Influential: SoftSell becomes **25**.

- Full staff: SoftSell becomes **30**.

Same +5/+10 also applies on top of Friends and Family (**20** base), HardSell (**40**), Send the House (**50**), etc.

Strategist

Ability	HC	DC	OC	Max
Making Friends	20	15	15	50
Hospitality	15	5	5	25
Mind Reader	30	30/15	15/30	75

Making Friends (`Recruiting_PointsBoost_CompVisit`)

Flat boost to complimentary-visit influence.

- HC: **+20**. Full staff: **+50**.

Baseline `complimentaryVisitBonus` = **5**, and competitive visits take a **-5** penalty.

Example: A complimentary visit that was worth **5** influence becomes **25** with HC Making Friends, or **55** with full staff. That is a 5x to 11x multiplier on the base complimentary bonus alone – one of the largest relative swings in the tree.

Hospitality (Recruiting_PointsBoost_Visit)

Flat boost to normal visit impact for that position.

- HC: **+15**. Full staff: **+25**.

Visit activities already scale hard with grade and interest level (Interested A = **+30**, Dealbreaker A+ = **+48**).

Example: An Interested visit activity graded A (**+30**) becomes **+45** with HC Hospitality, or **+55** with full staff – before stacking multiple activities on the same visit.

Mind Reader (Recruiting_UnlockTrait_Visit)

Chance points to learn a recruit's development trait while scouting that position.

- HC: **+30**. Matching coord: **+30**. Off-side: **+15**. Max **+75**.

Example: HC Mind Reader alone is a **+30** chance bump on the scouting unlock roll. With HC + matching coordinator you are at **+60**; full staff **+75**. This is an added chance, not a guaranteed reveal.

Talent Developer

Ability	HC	DC	OC	Max
Home Sweet Home	100	50	50	200

Home Sweet Home (Recruiting_InfluenceBoost_Pipeline)

Large boost to the pipeline bonus on recruiting actions for that position.

- HC: **+100**. Full staff: **+200**.

Baseline pipeline bonuses on SoftSell are only **0 / 2 / 4 / 6 / 8 / 10** by level; HardSell **0 / 4 / 8 / 12 / 16 / 20**. Home Sweet Home dwarfs those tables – treat the talent value as a large flat add to pipeline influence for that position group.

Example: SoftSell on a L5 pipeline recruit normally gets **+10** pipeline. HC Home Sweet Home adds **+100** more pipeline influence (**+110** pipeline piece alone). Full staff makes that **+210** on top of the SoftSell base 20 – pipeline becomes the dominant part of the action.

Program Builder (HC only)

Ability	HC
Household Name	10
Hometown Discount	25

Household Name (Recruiting_InfluenceBoost_PipelineStart)

+10 starting interest for recruits from your **primary** pipeline.

Example: Primary-pipeline starting interest ladder is **0 / 5 / 10 / 15 / 25 / 35**. Household Name is a flat **+10** on top of whatever that ladder already gave – roughly another full step (L2→L3 or L3→L4-ish depending on level).

Hometown Discount (Recruiting_Action_InfluenceBoost_Pipeline)

+25 flat influence on recruiting actions against primary-pipeline recruits.

Example: SoftSell base **20** becomes **45** on a primary-pipeline target. Stacked with HC Most Influential (+5) that SoftSell is **50**. This is 5x the HC Most Influential bonus, but only for primary-pipeline recruits.

CEO (HC only)

Ability	HC
Dream School	10
Lasting Impression	5

Dream School (Recruiting_BoostCommitChanceOn1st)

+10 chance points to instant-commit when you offer a scholarship as the recruit's top school.

Baseline InstantCommitOddsPerStarLevel = **10 / 8 / 6 / 4 / 2** for 1-star through 5-star.

Example: Offering as #1 to a 5-star without Dream School is a **2%** instant-commit roll. With Dream School that becomes **12%** if the talent adds on top of the star-level table (additive boost reading). A 3-star goes from **6%** to **16%**.

Lasting Impression (Recruiting_PointsBoost_Accelerate)

+5 additional interest for every **10 hours** spent on a recruit (RecruitingPointsBoostAccelerate_Divisor = 10).

Example: Cap is MaxTotalHoursOnRecruitPerWeek = **50**.

- 10 hours → +5
- 30 hours → +15
- 50 hours → +25

That is passive interest on top of whatever the hours actions themselves granted.

Quick reference (HC values)

Tree	Ability	HC value	What it does
Recruiter	Persuasive Personality	+30	sway chance
Recruiter	Magnetic Personality	+10	HS starting interest
Recruiter	Portal King	+10	transfer starting interest
Elite Recruiter	Ideal Situation	+3 grades	ideal-pitch letter grade
Elite Recruiter	Upsell	+10	points from My School grades
Elite Recruiter	Most Influential	+5	flat action influence
Strategist	Making Friends	+20	complimentary visits
Strategist	Hospitality	+15	visit impact
Strategist	Mind Reader	+30	scouting trait reveal chance
Talent Dev	Home Sweet Home	+100	pipeline action bonus
Program Builder	Household Name	+10	primary-pipeline start interest
Program Builder	Hometown Discount	+25	primary-pipeline action influence
CEO	Dream School	+10	instant commit when #1
CEO	Lasting Impression	+5 / 10 hrs	interest from hours spent

Caveats

1. Talent definitions are unchanged patch 2 to patch 3.
2. Stacking is additive across HC/OC/DC.
3. Flat vs chance vs grade-step readings above are inferred from field names, schema caps, and comparison to baseline recruiting tunables. Native apply bytecode is not in FranTk source. Ideal Situation as letter-grade steps, and PointsBoost_* as flat influence, are the readings that best match the stored values against known baselines (especially Making Friends vs a base complimentary bonus of 5).
